### About This Game

**ANOTHER VISITOR... PLAY A WHILE, GO MAD FOREVER!**

*And so you think you will succeed where everybody else has failed. I, **Huenison**, the Evil Master in charge of the conquest of your world, will see to it that you fail miserably.*

*Yes, conquest.*

*Why? Because.*

*Unfair? Who cares. But enough, I am not wasting further time here. Go away. Or, if you're really serious about it, come down into my deep Mind Control Wells and... die.*

## WHAT IS THIS?

**Huenison** is an innovative arcade shooter that takes various elements from **Arkanoid**, **BOH**, **Decathlon**, **Dyna Blaster**, **Impossible Mission**, **Oil's Well**, **Pac-Man**, **Pang**, **Qix**, **Slam Tilt**, **Space Invaders**, **Tetris**, and **Vital Light**, and puts them together in a hectic mix. All in retro visuals and synthetic sonorities that recall the revered **Commodore 64's SID chip**.

You shoot at falling *bricks* with a *cannon* at the bottom of a *well* (and no, you haven't ever seen anything like this before). Your beams hit bricks only when they are of the *same color*. Hitting a brick produces a *specific effect* depending on the *type of the brick*. Missing bricks will let them accumulate at the bottom of the well, raising the *ground* where the cannon rests - and, on top of that, bringing the *deadly zapper* down, closer to the cannon.

But this is just the beginning: each level plays differently, more and more brick types are introduced along the way, occasional *disturbances* will suddenly bring some more chaos, and lots of *bonuses* will help catch a breath (and score more points)! It's a unique experience that can't be described with words. Just dive into **Huenison's Mind Control Wells**, defeat him, and save the world!

THE SAGA

**Huenison** is part of a saga that, as of writing, includes five different games.

**BOH** opens the story, with the **Evil Masters** bringing chaos to **Earth**. **Huenison** focuses on the fight against one of them, the eponymous character. Eventually the Evil Masters were repelled, but, as seen in **QUOD INIT EXIT IIm**, during their retreat, Huenison and his companions happened to pass by planet **Suinio** and decided to cause trouble there as well. In **MAH**, years later, the danger came from the **Apocalypser**, the weapon that had been developed against the Evil Masters and that the **Purifiers** activated to destroy the Earth. Finally, **KOG** assigns a new task to the hero who turned the Apocalypser off.
